**EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Douglas E McKinley, Jr on June 14, 2004.

The application has been amended as follows:

Replace the existing claims with the following claims:

Claims 1-7 (Canceled).

8. (Currently amended) A method for forming an aerogel having a high density of hydroxyl groups comprising the step of exposing an aerogel to a mixture of added water and a supercritical fluid.

9. (Original) The method of claim 8, wherein said aerogel is provided as a ceramic oxide.

10. (Previously presented) The method of claim 9, wherein said ceramic oxide is provided as selected from the group consisting of silica, alumina, aluminosilicate, and combinations thereof.

Claims 11-16 (Canceled).

***Reasons for allowance***

2. The following is an examiner's statement of reasons for allowance: attention is directed to Page 5, lines 20 et seq, particularly lines 23-26, of the instant specification for basis of the above amendment to claim 8. The rejection under 35 USC 112, second paragraph, has been withdrawn in light of applicants' remarks at page 5 and 6 of the response filed March 26, 2004. Said response directs attention to page 3, lines 14-18 of the instant specification wherein "high density" is specifically defined.

The prior art does not disclose or fairly suggest the methods of claims 8-10.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
